We have had many illnesses going around the last month. Listed below is the school Medical Policy. Please take a minute to read it and help us keep our students healthy!

When a student becomes ill, parents are expected to arrange for his/her care. This policy will be strictly adhered to in order to avoid exposure to other students and staff. The student must stay home at least 24 hours after a fever breaks, not when the fever begins. If the student is vomiting and/or has diarrhea, he/she must stay home 24 hours after the vomiting and/or diarrhea has stopped. If the student receives prescribed medication for a contagious illness, they must stay home at least 24 hours after beginning the medication

If a student exhibits any of the following symptoms, the student must be picked up ASAP or stay at home:

- More than one episode of diarrhea;
- Severe coughing where the student turns red or blue in the face or makes high-pitched croupy or whooping sounds after coughing;
- Difficult or rapid breathing;
- Yellowish skin or eyes;
- Pink-eye; redness of lining, irritation, colored pus, drainage, discharge from the eye;
- Unusual spots or rashes;
- Sore throat or trouble swallowing with a fever >100 degrees;
- Infected skin patches;
- Gray or white stool;
- Fever over 100 degrees;
- Headache and stiff neck combination;
- Vomiting;

Severe itching of the body or scalp.

If the student is sent home from school with one of the contagious conditions above and the student is not contagious, a note must be written from a physician stating the student will be allowed to return to school.

1. Health Standards: According to Missouri State Law, all students must be properly immunized in accordance with the standards of the Missouri State Health Department before being permitted to attend school.

2. Use of Medication: Teachers in general are not authorized to dispense medicine or aspirin. Students should, however, inform teachers if they are taking special medications. Please turn in medications to the school nurse upon arrival.

3. Nurse: The school nurse is available for every student. If a student feels the need to see the nurse, permission must be obtained from a teacher or the office. If a student is sent home ill, they should not return that evening to participate in activities. Should you need to speak with the nurse directly, please call 238-1646 ext. 173.

*** This is located in each Student Agenda***
